**PARKWAY | TREE**  
REPLACEMENT LIST

**CITY OF FOUNTAIN VALLEY  
AUTHORIZED PARKWAY TREE LIST**

|                               |  |                     |
|-------------------------------|--|---------------------|
| 1. Crape Myrtle               | ( <i>Lagerstroemia indica</i> )          | Deciduous           |
| 2. Bronze Loquat              | ( <i>Eriobotrya deflexa</i> )            | Evergreen           |
| 3. Japanese Privet            | ( <i>Ligustrum japonicum</i> )           | Evergreen           |
| 4. African Sumac              | ( <i>Rhus iancea</i> )                   | Evergreen           |
| 5. Water Gum                  | ( <i>Tristaniopsis laurina</i> )         | Evergreen           |
| 6. Chitalpa                   | ( <i>Chitalpa tashkentensis</i> )        | Deciduous           |
| 7. Eastern Redbud             | ( <i>Cercis candensis</i> )              | Deciduous           |
| 8. Chinese Fringe             | ( <i>Chinanthus retusus</i> )            | Deciduous           |
| 9. Aristocrat Pear            | ( <i>Pyrus calleryana 'aristocrat'</i> ) | Deciduous           |
| 10. Australian Willow         | ( <i>Geijera parvifolia</i> )            | Evergreen           |
| 11. New Zealand Christmas     | ( <i>Metrosideros tomentosa</i> )        | Evergreen           |
| 12. Victorian Box             | ( <i>Pittosporum undulatum</i> )         | Evergreen           |
| 13. Purple Leaf Plum          | ( <i>Prunus cerasifera pissardi</i> )    | Deciduous           |
| 14. Long Leafed Yellow Wood   | ( <i>Podocarpus henkelii</i> )           | Evergreen           |
| 15. Sweet Bay, Grecian Laurel | ( <i>Laurus nobilis</i> )                | Evergreen           |
| 16. Maidenhair                | ( <i>Ginkgo biloba 'autumn gold'</i> )   | Deciduous           |
| 17. Yew Pine                  | ( <i>Podocarpus macrophyllus</i> )       | Evergreen           |
| 18. Marina Strawberry         | ( <i>Arbutus 'marina'</i> )              | Evergreen           |
| 19. Peppermint Willow         | ( <i>Agonis flexuosa</i> )               | Evergreen           |
| 20. Hong Kong Orchid          | ( <i>Bauhinia blakeana</i> )             | Semi-Deciduous      |
| 21. Gold Medallion            | ( <i>Cassia leptophylla</i> )            | Evergreen-Deciduous |

**Crape Myrtle (*Lagerstroemia indica*)**

Crape Myrtle is a commonly used single or multi-trunk tree, effective as a flowering or foliage accent. It blooms best in full sun, when it receives moderate moisture. It has handsome peeled bark and a colorful summer bloom. Named varieties, which usually grow to 25' or less, include: Glendora White, Near East, Seminole and Watermelon Red.

|                     |   |
|---------------------|---|
| <b>Type:</b>        | Deciduous   |
| <b>Exposure:</b>    | Full Sun  |
| <b>Water Needs:</b> | Moist to Dry Soil. Drought Tolerant.                          |
| <b>Soil Type:</b>   | Clay, Loam or Sand  |
| <b>Soil pH:</b>     | Highly Acidic to Slightly Alkaline                            |
| <b>Height:</b>      | 25 feet   |
| <b>Rate:</b>        | 24 Inches per Season  |
| <b>Shape:</b>       | Oval, Rounded, Umbrella or Vase, Spreading with Low Canopy.   |
| <b>Use:</b>         | Screen, Hedged  |
| <b>Flowers:</b>     | Showy, Lavender, Pink, Red, Rose or White. Flowers in Summer. |
| <b>Fruit:</b>       | Brown Capsule, Small (0.25 - 0.50 inches), Fruiting in Fall.  |

**Bronze Loquat (*Eriobotrya deflexa*)**

Bronze Loquat is more often planted than Japanese Loquat. Its shiny bronzy green new foliage with reddish highlights is quite attractive, and it rarely sets fruit. Large panicles of deep pink flowers are showy in the spring. It looks best with regular pruning to maintain its shape, and regular deep watering to promote healthy growth. It is not drought tolerant.

|                     |  |
|---------------------|--|
| <b>Type:</b>        | Evergreen  |
| <b>Exposure:</b>    | Full Sun to Partial Shade  |
| <b>Water Needs:</b> | Moist Soil   |
| <b>Soil Type:</b>   | Clay, Loam or Sand.  |
| <b>Soil pH:</b>     | Highly Acidic to Highly Alkaline   |
| <b>Height:</b>      | 25 feet  |
| <b>Growth:</b>      | 36 Inches per Season   |
| <b>Shape:</b>       | Rounded, Umbrella or Vase, Erect or Spreading with a Low Canopy.         |
| <b>Use:</b>         | Screen, Espalier or Hedged   |
| <b>Flowers:</b>     | Showy, White. Flowers in Spring.   |
| <b>Fruit:</b>       | Yellow or Mostly Green, Medium (0.50 - 1.50 inches), Fruiting in Summer. |

**Japanese Privet (*Ligustrum japonicum*)**

Japanese Privet is susceptible to Texas root rot. Takes shearing. Has fragrant flower.

|                     |   |
|---------------------|---|
| <b>Type:</b>        | Evergreen   |
| <b>Exposure:</b>    | Full Sun to Partial Shade   |
| <b>Water Needs:</b> | Moist Soil  |
| <b>Soil Type:</b>   | Clay, Loam or Sand  |
| <b>Soil pH:</b>     | Highly Acidic to Highly Alkaline  |
| <b>Height:</b>      | 20 feet   |
| <b>Rate:</b>        | 24 Inches per Season  |
| <b>Shape:</b>       | Oval or Rounded, Compact and Erect.   |
| <b>Use:</b>         | Screen, Espalier, Topiary or Hedged   |
| <b>Flowers:</b>     | Showy, Fragrant, White. Flowers in Spring or Summer.  |
| <b>Fruit:</b>       | Prolific, Black or Mostly Blue Drupe, Small (0.25 - 0.50 inches), Fruiting in Fall, Winter or Summer. |

African Sumac (*Rhus iancea*)

African Sumac is a dense shade tree, rather graceful with its arching branches and weeping foliage. It is tough and reliable in dry conditions, though it looks best with regular deep watering. It is susceptible to Texas root rot. It is effective as a screen or windbreak, and as an evergreen specimen.

|                     |                                      |
|---------------------|--------------------------------------|
| <b>Type:</b>        | Evergreen                            |
| <b>Exposure:</b>    | Full Sun to Partial Shade            |
| <b>Water Needs:</b> | Moist to Dry Soil. Drought tolerant. |
| <b>Soil Type:</b>   | Clay, Loam or Sand                   |
| <b>Soil pH:</b>     | N/A                                  |
| <b>Height:</b>      | 25 feet                              |
| <b>Growth:</b>      | 24 Inches per Season                 |
| <b>Shape:</b>       | Rounded or Umbrella                  |
| <b>Use:</b>         | Screen                               |
| <b>Flowers:</b>     | Inconspicuous                        |
| <b>Fruit:</b>       | Small (0.25 - 0.50 inches)           |

**Water Gum (*Tristaniaopsis laurina*)**

Water Gum is a tree with a smooth, creamy-brown trunk and perfumed yellow flowers in summer. Leaves turn red in winter in cooler areas.

|                     |  |
|---------------------|--|
| <b>Type:</b>        | Evergreen  |
| <b>Exposure:</b>    | Sun to Partial Shade   |
| <b>Water Needs:</b> | Moist to Dry Soil. Drought Tolerant.   |
| <b>Soil Type:</b>   | Clay, Loam or Sand   |
| <b>Soil pH:</b>     | N/A  |
| <b>Height:</b>      | 45 feet  |
| <b>Growth:</b>      | Slow   |
| <b>Shape:</b>       | Oval   |
| <b>Use:</b>         | Gully Erosion Control, Windbreak, Fence Screen, Container Plant, Shade Tree, Street Tree.  |
| <b>Flowers:</b>     | Cream to Orange-Yellow Flowers, 0.4 Inch in Diameter (1 cm), in Short Clusters, in Summer. |
| <b>Fruit:</b>       | Globular Seed Capsule, 0.25 to 0.33 inch in diameter (6-8 mm).                             |

**Chitalpa (Chitalpa tashkentensis)**

Chitalpa is an unusual small flowering accent tree, especially useful in riparian or native garden settings, usually multi-trunked or low-branching. It blooms best in full sun, when it receives moderate moisture. It becomes taller in half shade. Its grayish-white bark presents an interesting silhouette in winter with its bare branches.

|                     |                               |
|---------------------|-------------------------------|
| <b>Type:</b>        | Deciduous                     |
| <b>Exposure:</b>    | Full Sun to Partial Shade.    |
| <b>Water Needs:</b> | Moist to Dry Soil.            |
| <b>Soil Type:</b>   | Loam or Sand.                 |
| <b>Soil pH:</b>     | N/A                           |
| <b>Height:</b>      | 25 feet                       |
| <b>Growth:</b>      | 36 Inches Per Season          |
| <b>Shape:</b>       | Rounded, Umbrella or Vase.    |
| <b>Use:</b>         | Screen                        |
| <b>Flowers:</b>     | Showy, Lavender.              |
| <b>Fruit:</b>       | Very Large (Over 3.00 inches) |

**Eastern Redbud (Cercis candensis)**

Eastern Redbud is a commonly used single or multi-trunk tree, effective as a flowering or foliage accent, in lawns or residential garden settings. Leaves are an attractive lemon in fall. It blooms best in full sun, where it receives moderate moisture. Occasional tent caterpillar attacks can be controlled with spraying.

|                     |  |
|---------------------|--|
| <b>Type:</b>        | Deciduous  |
| <b>Exposure:</b>    | Full Sun to Partial Shade  |
| <b>Water Needs:</b> | Moist Soil   |
| <b>Soil Type:</b>   | Clay, Loam or Sand   |
| <b>Soil pH:</b>     | Highly Acidic or Highly Alkaline   |
| <b>Height:</b>      | 25 feet  |
| <b>Growth:</b>      | 36 Inches per Season   |
| <b>Shape:</b>       | Rounded or Umbrella, Erect or Spreading with a Low Canopy.                         |
| <b>Use:</b>         | Screen   |
| <b>Flowers:</b>     | Showy, Pink or Rose. Flowers in Spring.  |
| <b>Leaves:</b>      | Round Light to Medium Green. Gold in Fall.   |
| <b>Fruit:</b>       | Brown, Purple or Mostly Green Pod, Large (1.50 - 3.00 inches), Fruiting in Summer. |

**Chinese Fringe (Chinanthus retusus)**

Fringe Tree is an unusual small flowering tree with both female and male trees. It is generally most useful in residential lawn and garden settings, where proper culture can be maintained. Its spring flowering is quite impressive, and is attractive in fall, with the reddish berries seen amongst the yellow fall foliage. It is a very clean looking tree. It is easily maintained below 25' in height. Has fragrant flower.

|                     |   |
|---------------------|---|
| <b>Type:</b>        | Deciduous   |
| <b>Exposure:</b>    | Full Sun to Partial Shade                                 |
| <b>Water Needs:</b> | Moist Soil  |
| <b>Soil Type:</b>   | Clay, Loam  |
| <b>Soil pH:</b>     | Highly Acidic or Slightly Alkaline                        |
| <b>Height:</b>      | 20 feet   |
| <b>Growth:</b>      | 24 Inches per Season                                      |
| <b>Shape:</b>       | Rounded or Umbrella, Spreading                            |
| <b>Use:</b>         | Screen  |
| <b>Flowers:</b>     | Showy, Fragrant, White. Flowers in Summer.                |
| <b>Leaves:</b>      | Light to Medium Green. Gold in Fall.                      |
| <b>Fruit:</b>       | Purple or Mostly Blue Drupe, Medium (0.50 - 1.50 inches). |

**Aristocrat Pear (*Pyrus calleryana* 'aristocrat')**

Aristocrat Pear is fairly resistant to fire blight. Open, wide branching; approximate height is 40 feet.

|                     |   |
|---------------------|---|
| <b>Type:</b>        | Deciduous   |
| <b>Exposure:</b>    | Full Sun  |
| <b>Water Needs:</b> | Moist to Dry Soil   |
| <b>Soil Type:</b>   | Clay, Loam or Sand  |
| <b>Soil pH:</b>     | Highly Acidic to Highly Alkaline  |
| <b>Height:</b>      | Up to 50 feet   |
| <b>Growth:</b>      | 24 - 36 Inches per Season   |
| <b>Shape:</b>       | Conical or Oval, Erect or Spreading with a High Canopy.                               |
| <b>Use:</b>         | Screen  |
| <b>Flowers:</b>     | Showy, White. Flowers in Spring or Winter.  |
| <b>Fruit:</b>       | Prolific, Brown or Mostly Green Pome, Small (0.25 - 0.50 inches), Fruiting in Summer. |

Australian Willow (*Geijera parvifolia*)

Australian Willow makes good street tree; noninvasive roots, casts light shade. Moderate growth rate.

|                     |                                      |
|---------------------|--------------------------------------|
| <b>Type:</b>        | Evergreen                            |
| <b>Exposure:</b>    | Full Sun to Partial Shade            |
| <b>Water Needs:</b> | Moist to Dry Soil. Drought Tolerant. |
| <b>Soil Type:</b>   | Clay, Loam or Sand                   |
| <b>Soil pH:</b>     | Highly Acidic to Slightly Alkaline   |
| <b>Height:</b>      | 35 feet                              |
| <b>Growth:</b>      | 24 - 36 Inches per Season            |
| <b>Shape:</b>       | Oval                                 |
| <b>Use:</b>         | Screen                               |
| <b>Flowers:</b>     | White                                |
| <b>Fruit:</b>       | Small (0.25 - 0.50 inches)           |

**New Zealand Christmas (SML) (*Metrosideros tomentosa*)**

New Zealand Christmas is drought resistant and smog tolerant.

|                     |  |
|---------------------|--|
| <b>Type:</b>        | Evergreen  |
| <b>Exposure:</b>    | Full Sun to Partial Shade  |
| <b>Water Needs:</b> | Moist to Dry Soil. Drought Tolerant.   |
| <b>Soil Type:</b>   | Loam or Sand   |
| <b>Soil pH:</b>     | Neutral to Slightly Alkaline   |
| <b>Height:</b>      | 35 feet  |
| <b>Growth:</b>      | 24 Inches per Season   |
| <b>Shape:</b>       | Oval or Rounded, Erect or Spreading with a Low Canopy.                         |
| <b>Use:</b>         | Screen, Hedged   |
| <b>Flowers:</b>     | Showy, Red. Flowers in Spring or Summer.                                       |
| <b>Fruit:</b>       | Brown or Gray Capsule, Small (0.25 - 0.50 inches), Fruiting in Summer or Fall. |

Victorian Box (*Pittosporum undulatum*)

Victorian Box is fairly drought resistant. Cal-IPC (California Invasive Plant Council) classifies the invasiveness of this plant as small and more problematic on north coast. Has fragrant flower.

|                     |   |
|---------------------|---|
| <b>Type:</b>        | Evergreen   |
| <b>Exposure:</b>    | Full Sun to Partial Shade   |
| <b>Water Needs:</b> | Wet to Moist Soil. Drought Tolerant.  |
| <b>Soil Type:</b>   | Clay, Loam or Sand  |
| <b>Soil pH:</b>     | Slightly Acidic to Slightly Alkaline  |
| <b>Height:</b>      | 35 feet   |
| <b>Growth:</b>      | 24 - 36 Inches per Season   |
| <b>Shape:</b>       | Rounded or Umbrella, Compact and Erect or Spreading with a Low Canopy.            |
| <b>Use:</b>         | Screen, Hedged  |
| <b>Flowers:</b>     | Showy, Fragrant, White. Flowers in Spring.  |
| <b>Fruit:</b>       | Prolific, Orange or Yellow Capsule, Small (0.25 - 0.50 inches), Fruiting in Fall. |

**Purple Leaf Plum (*Prunus cerasifera pissardi*)**

Purple Leaf Plum produces a heavy crop of small red plums. Requires a moderate amount of water. Purple foliage all season. Hardy. Has fragrant flower.

|                     |   |
|---------------------|---|
| <b>Type:</b>        | Deciduous   |
| <b>Exposure:</b>    | Full Sun to Partial Shade   |
| <b>Water Needs:</b> | Moist Soil  |
| <b>Soil Type:</b>   | Clay, Loam or Sand  |
| <b>Soil pH:</b>     | Highly Acidic to Highly Alkaline  |
| <b>Height:</b>      | 35 feet   |
| <b>Growth:</b>      | 24 - 36 Inches per Season   |
| <b>Shape:</b>       | Oval or Vase, Erect or Spreading with a Low Canopy.                           |
| <b>Use:</b>         | Screen  |
| <b>Flowers:</b>     | Showy, Fragrant, White. Flowers in Spring.                                    |
| <b>Fruit:</b>       | Prolific, Red Drupe, Medium (0.50 - 1.50 inches), Fruiting in Summer. Edible. |

**Long Leafed Yellow Wood (*Podocarpus henkelii*)**

An ornamental tree. Drooping dense dark green foliage; branches droop but resist breakage. It grows at a moderately slow rate of about a foot a year to 20-30 feet high with a spread of about 8 to 15 feet. As conifers, they produce cones, although it is their fruit-like seeds that are most prominent. It is easy to cultivate, tough once established, and incredibly long lived.

|                     |   |
|---------------------|---|
| <b>Type:</b>        | Evergreen                                   |
| <b>Exposure:</b>    | Full Sun to Partial Shade                   |
| <b>Water Needs:</b> | Dry to Normal Soil                          |
| <b>Soil Type:</b>   | Clay, Loam or Sand Texture.                 |
| <b>Soil pH:</b>     | Neutral to Slightly Acidic Soil             |
| <b>Height:</b>      | 20-35 feet                                  |
| <b>Growth:</b>      | 12-36 Inches per Year                       |
| <b>Shape:</b>       | Assumes Pyramid Shape as it Grows.          |
| <b>Use:</b>         | Specimen or Buffer Strip.<br>Hedge, Screen. |
| <b>Flowers:</b>     | Flowers Inconspicuous                       |
| <b>Fruit:</b>       | Cones                                       |

**Sweet Bay, Grecian Laurel (*Laurus nobilis*)**

Sweet Bay leaves can be used for seasoning. Has fragrant fruit and leaf.

|                     |  |
|---------------------|--|
| <b>Type:</b>        | Evergreen  |
| <b>Exposure:</b>    | Full Sun to Partial Shade  |
| <b>Water Needs:</b> | Moist to Dry Soil  |
| <b>Soil Type:</b>   | Clay, Loam or Sand   |
| <b>Soil pH:</b>     | Highly Acidic to Highly Alkaline                                     |
| <b>Height:</b>      | 35 feet  |
| <b>Growth:</b>      | 12 - 24 Inches per Season  |
| <b>Shape:</b>       | Conical or Oval, Compact and Erect with a Low Canopy.                |
| <b>Use:</b>         | Screen, Hedged or Topiary.   |
| <b>Flowers:</b>     | Green, White or Yellow. Flowers in Spring.                           |
| <b>Fruit:</b>       | Black or Purple Berry, Small (0.25 - 0.50 inches), Fruiting in Fall. |

**Maidenhair (*Ginkgo biloba* 'autumn gold')**

Maidenhair is resistant to oak root fungus. Smog tolerant.

|                     |   |
|---------------------|---|
| <b>Type:</b>        | Deciduous   |
| <b>Exposure:</b>    | Full Sun to Partial Shade   |
| <b>Water Needs:</b> | Moist to Dry Soil   |
| <b>Soil Type:</b>   | Clay, Loam or Sand  |
| <b>Soil pH:</b>     | Highly Acidic to Slightly Alkaline                                    |
| <b>Height:</b>      | 65 feet   |
| <b>Growth:</b>      | 12 - 24 Inches per Season   |
| <b>Shape:</b>       | Rounded or Umbrella, Erect or Spreading and covers an Extensive Area. |
| <b>Use:</b>         | Screen  |
| <b>Flowers:</b>     | Inconspicuous. Flowers in Winter.                                     |
| <b>Fruit:</b>       | Fruitless.  |

Yew Pine (*Podocarpus macrophyllus*)

Yew Pine needs good drainage.

| <b>Fruit:</b>       | Purple Drupe, Small (0.25 - 0.50 inches), Fruiting in Fall. Edible. |

**Marina Strawberry (Arbutus 'marina')**

This is a somewhat tender, but highly desirable small yard tree, which bears evergreen leaves. The pendulous clusters of urn-shaped white-blushed-pink flowers are produced year-round along the coast with peaks in spring and fall. The red strawberry like fruit is edible, although has little flavor, but birds are attracted to eat the fruit so no litter is produced. Although slow growing, it can grow to a height of over 40 feet and 20-25 feet width.

| <b>Flowers:</b>     | Flowers Showy. White Flowers in Spring or Summer.              |
| <b>Fruit:</b>       | Small Woody, Brown Fruits in Clusters.                         |

**Hong Kong Orchid (*Bauhinia blakeana*)**

This small tree grows to about 20 to 40 feet tall with a light gray smooth bark and an umbrella-shape habit. It has rose-purple fragrant flowers. A great tree in frost-free areas with flowers that are attractive to humans and hummingbirds and even as they drop, make a beautiful groundcover. There is no fruit on this tree.

| <b>Type:</b>        | Semi-Deciduous                                  |
| <b>Exposure:</b>    | Full Sun  |
| <b>Water Needs:</b> | Drought tolerant.                               |
| <b>Soil Type:</b>   | Clay, Loam or Sand                              |
| <b>Soil pH:</b>     | Slightly Alkaline; Acidic; Well-Drained.        |
| <b>Height:</b>      | 20-40 feet                                      |
| <b>Growth:</b>      | Moderate Growth                                 |
| <b>Shape:</b>       | Rounded, Spreading Canopy. Vase-Shape.          |
| <b>Flowers:</b>     | Rose-Purple Fragrant Flowers with Pink Stamens. |
| <b>Fruit:</b>       | N/A   |

**Gold Medallion (Cassia leptophylla)**

Although it shares the large, showy flowers and tropical-looking foliage of its cousins, gold medallion tree is much hardier to frost, dry heat, and drought. Each cluster produces thirty to fifty, fragrant, bright yellow, and 3-inch wide flowers over a long blooming period; the show is more spectacular as the weather heats up.
