

# Guide to Fountain Valley's Construction & Demolition Recycling Ordinance

Updated 2/01/2023

## WHY IS THERE A RECYCLING ORDINANCE?

The City adopted a Construction and Demolition Waste Recycling Program Ordinance (Municipal Code Chapter 6.09) to help comply with the California Green Building Standards Code and Waste Management Act recycling requirements. State Law requires that construction and demolition projects divert 65% diversion of all non-hazardous construction materials from landfills. This program includes a requirement for diversion plans and diversion reporting, that will assist the City in monitoring and obtaining compliance. The majority of construction debris can be reused or recycled, conserving natural resources and saving valuable landfill space.

## WHAT IS CONSTRUCTION & DEMOLITION (C&D) DEBRIS?

*Common C&D materials are non-hazardous waste that include lumber, drywall, metals, masonry (brick, concrete, etc.), carpet, plastic, pipe, rocks, dirt, paper, cardboard, or green waste related to land development.*

## HOW TO COMPLY

- Step 1** When applying for a Building Permit or submitting plans at the Building Counter, it will be determined if a Construction Waste Management Plan is required.
- Step 2 Complete and submit the Construction Waste Management Plan** before any Building permits have been issued. For demolition projects, building permits will not be issued until all documents and records are received and reviewed by the City for compliance with the Waste Management Plan. For construction projects, an inspection will occur before the framing inspection and before final inspection. During these inspections, documents and records will be reviewed and approved for compliance before project sign off.

Identify which authorized recycling / transfer facility you will be using.

Options for Recycling & Disposal:

- (1) Order a roll off bin through City's exclusive hauler Republic Services OR
- (2) Self Haul

**When ordering your bin from Republic Services "Roll Off Bin" service, it must be specified as "Construction Bin".**

- Step 3** Every time construction and demolition waste is hauled to an authorized location, you will receive a weight ticket(s). **SAVE ALL weight ticket(s) for the duration of the project.**
- Step 4** Submit to the City only the weight ticket(s) indicating C&D and or CDP and/or Diversion Report for review.
- Step 5** All projects will be signed off once all weight tickets demonstrate compliance and include the following information:
  - **Information about the facility**
  - **Tonnage Amounts**
  - **Source/Origin- Fountain Valley (Note: Do not co-mingle with construction debris from other cities/sites).**
  - **Appropriate coding to indicate that the material was properly recycled as construction and demolition debris- It is incumbent upon the Contractor/Owner to tell the weight master/scalehouse attendant at waste processing facility to process waste as “Construction & Demolition”, not Greenwaste or MSW/Trash and review tickets prior to leaving facility to ensure City receives diversion.**

**Contractor/Owner is responsible for thoroughly reviewing waste ticket(s) prior to submittal to the City. No correction or resubmittal of waste tickets is allowed. All decisions are final. Your project will not receive a final sign off if you don't show your weight tickets during the final inspections.**

**EXAMPLE: WEIGHMASTER CERTIFICATE**

**THIS IS TO CERTIFY** that the following described commodity was weighed, measured, or counted by weighmaster, whose name/signature is on this certificate, who is a recognized authority of accuracy, as prescribed by Chapter 7 (commencing with Section 12700) of Division 5 of the California Business and Professions Code, administered by the Division of Measurement Standards of the California Department of Food and Agriculture.

TICKET NO. : 3067076 TRUCK NO. : 1  
WEIGHMASTER: EDWARD LICENSE :

**1** → APPROVED FACILITY NAME & ADDRESS

CASH CUSTOMER / FLAT RATE

TIMEIN: 09:11:14 AM  
TIMEOUT: 09:11:14 AM  
DATE: 7/7/2020

**2** → GROSS Tons: 8.97  
TARE Tons: 5.50  
NET Tons: 3.47  
WEIGHTED Tons: 3.47  
DEPOSIT AMT: \$0.00

CASH CUSTOMER / CONTAINER: 5.50

**4** → Source: Fountain Valley  
CDP - C & D Public Fees: **3**

QUANTITY: 3.470 PRICE PER COST

**TICKETS MUST HAVE FOLLOWING:**

- ① Facility Information Listed
- ② Net Tonnage
- ③ Origin-Fountain Valley
- ④ Construction & Demolition (C&D, CDP)

**City of Fountain Valley- Approved Construction and Demolition Processing Facilities**

**Roll Off Containers**

Republic Services is the Fountain Valley's exclusive franchisee. Containers can only be rented from Republic Services. \*When ordering containers from Republic Services be sure to inform that the container is needed for a **"Construction Project"** This will assure the generation of a Weigh Ticket which you are required to submit at the end of the project for sign off.\*.
