# California 2022 CALIFORNIA GREEN BUILDING STANDARDS CODE NONRESIDENTIAL MANDATORY MEASURES, SHEET 2 (January 2023)

Y = YES  
N/A = NOT APPLICABLE  
RESPON. PARTY = RESPONSIBLE PARTY (ie: ARCHITECT, ENGINEER, OWNER, CONTRACTOR, INSPECTOR ETC.)

[illegible]

**DISCLAIMER:** THIS DOCUMENT IS PROVIDED AND INTENDED TO BE USED AS A MEANS TO INDICATE AREAS OF COMPLIANCE WITH THE CALIFORNIA GREEN BUILDING STANDARDS (CALGREEN) CODE. DUE TO THE VARIABLES BETWEEN BUILDING DEPARTMENT JURISDICTIONS, THIS CHECKLIST IS TO BE USED ON AN INDIVIDUAL PROJECT BASIS AND MAY BE MODIFIED BY THE END USER TO MEET THOSE INDIVIDUAL NEEDS. THE END USER ASSUMES ALL RESPONSIBILITY ASSOCIATED WITH THE USE OF THIS DOCUMENT, INCLUDING VERIFICATION WITH THE FULL CODE.

## NONRESIDENTIAL MANDATORY MEASURES, SHEET 3 (January 2023)

| <div> <div> <div></div> <div></div> </div> <div> <div>Y</div> <div>N/A</div> <div>RESPON PARTY</div> </div> </div> <div> <div>5.504.4 FINISH MATERIAL POLLUTANT CONTROL. Finish materials shall comply with Sections 5.504.4.1 through 5.504.4.6.</div> <div> <div>5.504.4.1 Adhesives, sealants and caulks. Adhesives, sealants, and caulks used on the project shall meet the requirements of the following standards:</div> <div> <div>1. Adhesives, adhesive bonding primers, adhesive primers, sealants, sealant primers and caulks shall comply with local or regional air pollution control or air quality management district rules where applicable, or SCAQMD Rule 1168 VOC limits, as shown in Tables 5.504.4.1 and 5.504.4.2. Such products also shall comply with the Rule 1168 prohibition on the use of certain toxic compounds (chloroform, ethylene dichloride, methylene chloride, perchloroethylene and trichloroethylene), except for aerosol products as specified in subsection 2, below.</div> <div>2. Aerosol adhesives, and smaller unit sizes of adhesives, and sealant or caulking compounds (in units of product, less packaging, which do not weigh more than one pound and do not consist of more than 16 fluid ounces) shall comply with statewide VOC standards and other requirements, including prohibitions on use of certain toxic compounds, of <i>California Code of Regulations</i>, Title 17, commencing with Section 94507.</div> </div> </div> </div> <div> <div>TABLE 5.504.4.1 - ADHESIVE VOC LIMIT<sub>1,2</sub></div> <div> <div>Less Water and Less Exempt Compounds in Grams per Liter</div> <table> <tr> <th>ARCHITECTURAL APPLICATIONS</th><th>CURRENT VOC LIMIT</th></tr> <tr><td>INDOOR CARPET ADHESIVES</td><td>50</td></tr> <tr><td>CARPET PAD ADHESIVES</td><td>50</td></tr> <tr><td>OUTDOOR CARPET ADHESIVES</td><td>150</td></tr> <tr><td>WOOD FLOORING ADHESIVES</td><td>100</td></tr> <tr><td>RUBBER FLOOR ADHESIVES</td><td>60</td></tr> <tr><td>SUBFLOOR ADHESIVES</td><td>50</td></tr> <tr><td>CERAMIC TILE ADHESIVES</td><td>65</td></tr> <tr><td>VCT &amp; ASPHALT TILE ADHESIVES</td><td>50</td></tr> <tr><td>DRYWALL &amp; PANEL ADHESIVES</td><td>50</td></tr> <tr><td>COVE BASE ADHESIVES</td><td>50</td></tr> <tr><td>MULTIPURPOSE CONSTRUCTION ADHESIVES</td><td>70</td></tr> <tr><td>STRUCTURAL GLAZING ADHESIVES</td><td>100</td></tr> <tr><td>SINGLE-PLY ROOF MEMBRANE ADHESIVES</td><td>250</td></tr> <tr><td>OTHER ADHESIVES NOT SPECIFICALLY LISTED</td><td>50</td></tr> <tr><td>SPECIALTY APPLICATIONS</td><td></td></tr> <tr><td>PVC WELDING</td><td>510</td></tr> <tr><td>CPVC WELDING</td><td>490</td></tr> <tr><td>ABS WELDING</td><td>325</td></tr> <tr><td>PLASTIC CEMENT WELDING</td><td>250</td></tr> <tr><td>ADHESIVE PRIMER FOR PLASTIC</td><td>550</td></tr> <tr><td>CONTACT ADHESIVE</td><td>80</td></tr> <tr><td>SPECIAL PURPOSE CONTACT ADHESIVE</td><td>250</td></tr> <tr><td>STRUCTURAL WOOD MEMBER ADHESIVE</td><td>140</td></tr> <tr><td>TOP &amp; TRIM ADHESIVE</td><td>250</td></tr> <tr><td>SUBSTRATE SPECIFIC APPLICATIONS</td><td></td></tr> <tr><td>METAL TO METAL</td><td>30</td></tr> <tr><td>PLASTIC FOAMS</td><td>50</td></tr> <tr><td>POROUS MATERIAL (EXCEPT WOOD)</td><td>50</td></tr> <tr><td>WOOD</td><td>30</td></tr> <tr><td>FIBERGLASS</td><td>80</td></tr> </table> <div> <div>1. IF AN ADHESIVE IS USED TO BOND DISSIMILAR SUBSTRATES TOGETHER, THE ADHESIVE WITH THE HIGHEST VOC CONTENT SHALL BE ALLOWED.</div> <div>2. FOR ADDITIONAL INFORMATION REGARDING METHODS TO MEASURE THE VOC CONTENT SPECIFIED IN THIS TABLE, SEE SOUTH COAST AIR QUALITY MANAGEMENT DISTRICT RULE 1168, <a href="http://www.arb.ca.gov/DRDB/SC/CURHTMLR/1166.PDF">www.arb.ca.gov/DRDB/SC/CURHTMLR/1166.PDF</a></div> </div> </div> </div> <div> <div>TABLE 5.504.4.2 - SEALANT VOC LIMIT</div> <div> <div>Less Water and Less Exempt Compounds in Grams per Liter</div> <table> <tr> <th>SEALANTS</th><th>CURRENT VOC LIMIT</th></tr> <tr><td>ARCHITECTURAL</td><td>250</td></tr> <tr><td>MARINE DECK</td><td>760</td></tr> <tr><td>NONMEMBRANE ROOF</td><td>300</td></tr> <tr><td>ROADWAY</td><td>250</td></tr> <tr><td>SINGLE-PLY ROOF MEMBRANE</td><td>450</td></tr> <tr><td>OTHER</td><td>420</td></tr> <tr><td>SEALANT PRIMERS</td><td></td></tr> <tr><td>ARCHITECTURAL</td><td></td></tr> <tr><td>NONPOROUS</td><td>250</td></tr> <tr><td>POROUS</td><td>775</td></tr> <tr><td>MODIFIED BITUMINOUS</td><td>500</td></tr> <tr><td>MARINE DECK</td><td>760</td></tr> <tr><td>OTHER</td><td>750</td></tr> </table> <div>NOTE: FOR ADDITIONAL INFORMATION REGARDING METHODS TO MEASURE THE VOC CONTENT SPECIFIED IN THESE TABLES, SEE SOUTH COAST AIR QUALITY MANAGEMENT DISTRICT RULE 1168.</div> </div> </div> <div> <div>5.504.4.3 Paints and coatings. Architectural paints and coatings shall comply with VOC limits in Table 1 of the ARB Architectural Coatings Suggested Control Measure, as shown in Table 5.504.4.3, unless more stringent local limits apply. The VOC content limit for coatings that do not meet the definitions for the specialty coatings categories listed in Table 5.504.4.3 shall be determined by classifying the coating as a Flat, Nonflat or Nonflat-High Gloss coating, based on its gloss, as defined in Subsections 4.21, 4.36 and 4.37 of the 2007 California Air Resources Board Suggested Control Measure, and the corresponding Flat, Nonflat or Nonflat-High Gloss VOC limit in Table 5.504.4.3 shall apply.</div> <div> <div>5.504.4.3.1 Aerosol Paints and coatings. Aerosol paints and coatings shall meet the PWMIR Limits for ROC in Section 94522(a)(3) and other requirements, including prohibitions on use of certain toxic compounds and ozone depleting substances, in Sections 94522(c)(2) and (d)(2) of <i>California Code of Regulations</i>, Title 17, commencing with Section 94520; and in areas under the jurisdiction of the Bay Area Air Quality Management District additionally comply with the percent VOC by weight of product limits of Regulation 8 Rule 49.</div> </div> </div> | ARCHITECTURAL APPLICATIONS | CURRENT VOC LIMIT | INDOOR CARPET ADHESIVES | 50 | CARPET PAD ADHESIVES | 50 | OUTDOOR CARPET ADHESIVES | 150 | WOOD FLOORING ADHESIVES | 100 | RUBBER FLOOR ADHESIVES | 60 | SUBFLOOR ADHESIVES | 50 | CERAMIC TILE ADHESIVES | 65 | VCT & ASPHALT TILE ADHESIVES | 50 | DRYWALL & PANEL ADHESIVES | 50 | COVE BASE ADHESIVES | 50 | MULTIPURPOSE CONSTRUCTION ADHESIVES | 70 | STRUCTURAL GLAZING ADHESIVES | 100 | SINGLE-PLY ROOF MEMBRANE ADHESIVES | 250 | OTHER ADHESIVES NOT SPECIFICALLY LISTED | 50 | SPECIALTY APPLICATIONS |  | PVC WELDING | 510 | CPVC WELDING | 490 | ABS WELDING | 325 | PLASTIC CEMENT WELDING | 250 | ADHESIVE PRIMER FOR PLASTIC | 550 | CONTACT ADHESIVE | 80 | SPECIAL PURPOSE CONTACT ADHESIVE | 250 | STRUCTURAL WOOD MEMBER ADHESIVE | 140 | TOP & TRIM ADHESIVE | 250 | SUBSTRATE SPECIFIC APPLICATIONS |  | METAL TO METAL | 30 | PLASTIC FOAMS | 50 | POROUS MATERIAL (EXCEPT WOOD) | 50 | WOOD | 30 | FIBERGLASS | 80 | SEALANTS | CURRENT VOC LIMIT | ARCHITECTURAL | 250 | MARINE DECK | 760 | NONMEMBRANE ROOF | 300 | ROADWAY | 250 | SINGLE-PLY ROOF MEMBRANE | 450 | OTHER | 420 | SEALANT PRIMERS |  | ARCHITECTURAL |  | NONPOROUS | 250 | POROUS | 775 | MODIFIED BITUMINOUS | 500 | MARINE DECK | 760 | OTHER | 750 | <div> <div>Y</div> <div>N/A</div> <div>RESPON PARTY</div> </div> <div> <div>TABLE 5.504.4.3 - CONT.</div> <div> <div>GRAMS OF VOC PER LITER OF COATING, LESS WATER &amp; LESS EXEMPT COMPOUNDS</div> <table> <tr> <th>COATING CATEGORY</th><th>CURRENT VOC LIMIT</th></tr> <tr><td>SPECIALTY COATINGS</td><td></td></tr> <tr><td>ALUMINUM ROOF COATINGS</td><td>400</td></tr> <tr><td>BASEMENT SPECIALTY COATINGS</td><td>400</td></tr> <tr><td>BITUMINOUS ROOF COATINGS</td><td>50</td></tr> <tr><td>BITUMINOUS ROOF PRIMERS</td><td>350</td></tr> <tr><td>BOND BREAKERS</td><td>350</td></tr> <tr><td>CONCRETE CURING COMPOUNDS</td><td>350</td></tr> <tr><td>CONCRETE/MASONRY SEALERS</td><td>100</td></tr> <tr><td>DRIVEWAY SEALERS</td><td>50</td></tr> <tr><td>DRY FOG COATINGS</td><td>150</td></tr> <tr><td>FAUX FINISHING COATINGS</td><td>350</td></tr> <tr><td>FIRE RESISTIVE COATINGS</td><td>350</td></tr> <tr><td>FLOOR COATINGS</td><td>100</td></tr> <tr><td>FORM-RELEASE COMPOUNDS</td><td>250</td></tr> <tr><td>GRAPHIC ARTS COATINGS (SIGN PAINTS)</td><td>500</td></tr> <tr><td>HIGH-TEMPERATURE COATINGS</td><td>420</td></tr> <tr><td>INDUSTRIAL MAINTENANCE COATINGS</td><td>250</td></tr> <tr><td>LOW SOLIDS COATINGS<sub>1</sub></td><td>120</td></tr> <tr><td>MAGNESITE CEMENT COATINGS</td><td>450</td></tr> <tr><td>MASTIC TEXTURE COATINGS</td><td>100</td></tr> <tr><td>METALLIC PIGMENTED COATINGS</td><td>500</td></tr> <tr><td>MULTICOLOR COATINGS</td><td>250</td></tr> <tr><td>PRETREATMENT WASH PRIMERS</td><td>420</td></tr> <tr><td>PRIMERS, SEALERS, &amp; UNDERCOATERS</td><td>100</td></tr> <tr><td>REACTIVE PENETRATING SEALERS</td><td>350</td></tr> <tr><td>RECYCLED COATINGS</td><td>250</td></tr> <tr><td>ROOF COATINGS</td><td>50</td></tr> <tr><td>RUST PREVENTATIVE COATINGS</td><td>250</td></tr> <tr><td>SHELLACS:</td><td></td></tr> <tr><td>CLEAR</td><td>730</td></tr> <tr><td>OPAQUE</td><td>550</td></tr> <tr><td>SPECIALTY PRIMERS, SEALERS &amp; UNDERCOATERS</td><td>100</td></tr> <tr><td>STAINS</td><td>250</td></tr> <tr><td>STONE CONSOLIDANTS</td><td>450</td></tr> <tr><td>SWIMMING POOL COATINGS</td><td>340</td></tr> <tr><td>TRAFFIC MARKING COATINGS</td><td>100</td></tr> <tr><td>TUB &amp; TILE REFINISH COATINGS</td><td>420</td></tr> <tr><td>WATERPROOFING MEMBRANES</td><td>250</td></tr> <tr><td>WOOD COATINGS</td><td>275</td></tr> <tr><td>WOOD PRESERVATIVES</td><td>350</td></tr> <tr><td>ZINC-RICH PRIMERS</td><td>340</td></tr> </table> <div> <div>1. GRAMS OF VOC PER LITER OF COATING, INCLUDING WATER &amp; EXEMPT COMPOUNDS</div> <div>2.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |                            |                   |                         |    |                      |    |                          |     |                         |     |                        |    |                    |    |                        |    |                              |    |                           |    |                     |    |                                     |    |                              |     |                                    |     |                                         |    |                        |  |             |     |              |     |             |     |                        |     |                             |     |                  |    |                                  |     |                                 |     |                     |     |                                 |  |                |    |               |    |                               |    |      |    |            |    |          |                   |               |     |             |     |                  |     |         |     |                          |     |       |     |                 |  |               |  |           |     |        |     |                     |     |             |     |       |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |                            |                   |                         |    |                      |    |                          |     |                         |     |                        |    |                    |    |                        |    |                              |    |                           |    |                     |    |                                     |    |                              |     |                                    |     |                                         |    |                        |  |             |     |              |     |             |     |                        |     |                             |     |                  |    |                                  |     |                                 |     |                     |     |                                 |  |                |    |               |    |                               |    |      |    |            |    |          |                   |               |     |             |     |                  |     |         |     |                          |     |       |     |                 |  |               |  |           |     |        |     |                     |     |             |     |       |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |                            |                   |                         |    |                      |    |                          |     |                         |     |                        |    |                    |    |                        |    |                              |    |                           |    |                     |    |                                     |    |                              |     |                                    |     |                                         |    |                        |  |             |     |              |     |             |     |                        |     |                             |     |                  |    |                                  |     |                                 |     |                     |     |                                 |  |                |    |               |    |                               |    |      |    |            |    |          |                   |               |     |             |     |                  |     |         |     |                          |     |       |     |                 |  |               |  |           |     |        |     |                     |     |             |     |       |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |                            |                   |                         |    |                      |    |                          |     |                         |     |                        |    |                    |    |                        |    |                              |    |                           |    |                     |    |                                     |    |                              |     |                                    |     |                                         |    |                        |  |             |     |              |     |             |     |                        |     |                             |     |                  |    |                                  |     |                                 |     |                     |     |                                 |  |                |    |               |    |                               |    |      |    |            |    |          |                   |               |     |             |     |                  |     |         |     |                          |     |       |     |                 |  |               |  |           |     |        |     |                     |     |             |     |       |     |
